

# TREFOIL & SEEDS

BY MARGARET KINSEY

Saturday, March 7, 14, 21 and 28, 2026 from 1 - 4:00 p.m.

**Trefoil and Seeds** is a goldwork embroidery design worked with #5 Japan thread, couched using silk couching thread in a traditional brick pattern. At the heart of the design, five dimensional seed elements are formed by padding with gold felt and worked in a combination of rough and smooth purls, creating contrast in both texture and shine. The stem, along with the outlines surrounding the seeds, is stitched using two sizes of pearl purl, providing structure and definition. To further enhance the piece, stitchers may opt to fill the background using a darning pattern, adding a layer of subtle complexity to the composition. **Techniques featured in this piece include** brick pattern couching, padding, satin stitch and chipping. Proficiency level is beginner, and the size is approximately three inches square.

The cost is \$175. Registration for MAR members is from July 1 - September 1, 2025. The class will be held remotely via Zoom and a materials kit will be mailed to each registrant.
