

Blue birds of happiness adorn this small sampler and extend blessings and good wishes for our homes.

Working over 1 thread of linen or over 2 threads can make a dramatic contrast in scale allowing fine details in some areas and covering large areas in others. This sampler incorporates both techniques in lettering and motifs.

The following chart describes each motif, a general color for each motif, and whether to work over 1 or 2 threads of linen. You may choose your own colors, add or rearrange the motifs to personalize your design, and use solid and/or variegated threads. The model was worked on 32 count linen and will fit into a standardized 5" X 7" frame.
